2025.09.12 – 2025.09.26: Skeletal state, total metabolic collapse, biological miracle: 195.940 TSH, 0.00 Free T4, forced in a locked ward instead of an intensive medical care unit while in an acute life crisis.

2025.10.03 – 2025.12.11: Lethal doses in the 2nd locked ward for 2.5 months: 6 Haloperidol injections combined with 10ml liquid Haloperidol and 425mg Leponex (Clozapine) in a SINGLE DAY. Aware coma and intentional starvation: 800mg Aminex (Amisulpride) combined with 400mg Leponex (Clozapine) while in a state of cachexia, 3 occasions in the "Clausura" (an iron-barred isolation cell, solitary confinement) with complete memory wipe, 75 mg Cisordinol with 500mg Leponex and Xanax daily.

I'm sharing my story as a survivor of 3 months of psycho-hell in a locked ward and a systematic chemical execution attempt to raise awareness of the dangers of the pseudo-scientific "mental health" industry. ALL GLORY TO GOD

In 2025 I was in a skeletal state (extreme emaciation) by an unknown toxin despite eating extraordinary amounts and fatigued after walking 30-50m, I got my pulse banging in my ears. While digesting I got a resting pulse of 122 BPM and went into coma-like sleep for 3-4 hours, the banging was present even for 5-6. I was given food and seat from strangers in the bus and my veins were painful to the touch: a clear sign of the final stages of starvation, with only days/hours remaining before total collapse.

I visited a GP, Dr. Tibor Fejér (district 10, Budapest) and complained about the life threatening starvation despite eating , the fatigue and pulse banging. He didn't measure my weight, asked if I'd lay in the hospital, I accepted. I thought I'd get infusion at the intensive care and figure the cause. He secretly referred me to a PSYCHIATRIC ward. He didn't even call for ambulance, he advised my family to call a TAXI(!!) to get me there, the ambulance would've seen my skeletal state and would've urgently taken me to the intensive care. There were 2 men before me in line, they finished in about 30 minutes, I waited there for 120 more minutes so this was no routine reception, they were compiling the fake legal and administrative background for my captivity.

As later turned out, I was referred to the psychiatry by Fejér for "religious delusions", my grandfather told him I was deeply religious. The referral paper NEVER mentioned any of my symptoms I told him when he "examined" me. This "examination" was me laying on bed for about 10 seconds and a bunch of nonsense questions about my farm and mythologies. He offered me an apple to test my religious knowledge, I refused to eat it. After about 5 mins of cliché talk at Nyírő, when I told my symptoms I was commanded to swallow an unknown drug or be force-injected and 2 security guards escorted me to the ward. MY ID CARD HAD EXPIRED IN 2020 OCTOBER, AND MY SOCIAL SECURITY INACTIVE!

They had no legal right to register me. On the 2nd day my blood test proved a biological miracle: a 195 TSH and 0.00 Free T4 (a total off-switch of my thyroid). This is a documented historical record of an acute life crisis, see "BloodTest_20250913". The normal maximum is 4.2 and over 100 the body normally dies of heart failure because metabolism and detoxification stop. With this proven life crisis I was kept in the locked ward instead of being transferred to intensive care. While the average stay was 3-5 days, I was held for 2 weeks. Dr. Réka Seres gave me Olanzapine, Clozapine, Risperdal, and Rivotril despite my ZERO metabolism! I could not cleanse these toxins AT ALL. A staff member told me I had long talks with her multiple times - I remember NONE of them.

On 2025.09.24. Seres was replaced, that day only. The new doctor promised me to send me to the "open" ward if there will be place after me calling my mother and crying which I don't remember, this quickly came to knowledge of the high ups and Seres. As seen by Evidence document "195TSH ANTIPSYCHOTICS 20250919-0925" 09.25. 10:30 shows 2 ampoules of HALOPERIDOL injection (unrecorded concentration) and 2 ampoules of Rivotril, 2 ampoules of rivotril = 2mg, directly in the blood. In comparison: from 0.5mg ORAL Rivotril an average person sleeps for hours. That's 4 injections in 1 day at a single time AND 6ml of liquid Risperdal AND 1.5mg of oral Rivotril! Complete memory wipe of that day, I was in aware coma and they locked me in the Clausura, an iron-barred isolation cell in another facility (a worker told me it was in another facility), forbidden to visit.

I got no memory of this at all and the paper "Clausura 1_1 and 2" has the date falsified to 2025.09.12. 12:00, while according to another document I was locked in the ward at 12:30. The B section is completely empty and there is no record of medical decourse papers and given neuroleptics/injections. The reason section of this document is written intentionally to be impossible to read. They wanted to make me "disappear" before I could get to the "open" ward, it's God's miracle I survived. They could do anything during the time, including inplants/injections/abuse/doses, all unrecorded. They were obliged to notify my legal representative, they didn't do that (no signature at Clausura 1_2). The next day I somehow got in the "open" ward with garden access but closed fences.

Dr. Réka Várkonyi was my doctor, I got there at 2025.09.26., to 2025.10.03, then the literal psycho-hell began. She was about to release me in 2 days when she suddenly went missing and was replaced by Dr. Pálinkás for "some reason". She, Dr. Pálinkás (second name, first name unknown) ordered me and my mother for a "talk" and when I told her they never had the legal right to register me she said "I see you can't be reasoned with", she ordered me to the back of her office, gave an unknown injection and forcibly transferred me to the other locked ward where I was for 2.25 months! This was when HELL and my physical-spiritual execution really started.

I was locked there from 2025.10.03 - 2025.12.11 until even the staff began begging Dr. Gábor Körtély and Dr. Péter Pestality (head of the ward) to release me. Average stay was 3 days, extreme cases 5-7! I was forced life-threatening doses, evident by the institution's own documents I'm about to show. I never gained actual weight, only edema (water retention). When I was locked in the ward I could fully wrap my fingers around my upper arm(!!), it was as thin as a shovel’s handle. As seen in "LETHAL_DOSES 20251018-1022" and 20251023-1101, day 18, I got my weight tested which I don't remember (65kg). I'm 177cm with a big and tall (heavy) head, most of it was waterweight.

In toxicology there's a biological defense mechanism when the body stores the toxins in extracellular water, that's why I gained waterweight. They gave me Aminex (Amisulpride) (800mg) combined with Leponex (Clozapine) (400mg) by day 29. Under days 25-28, there's a note "Gyógyszereit törve kapja!" meaning "Doses given in dustified (crushed) form!", so the guts would absorb all the poisons at once, not periodically as in whole. This was a documented chemical execution attempt. The 800mg of Aminex completely suppressed my hunger and I was in aware coma again behaving as an undead.

My eyes rolled back and I lost counsciousness with open eyes multiple times for minutes during talking, witnessed by my family during their 60 minute daily visits. If it happened several times in an hour, it probably happened at the very least 50 times daily and I was in constant risk of heart failure, starvation to death and Neuroleptic Malignant Syndrome (NMS). I was forced the most doses at night so my coma and half-dead state wouldn't be so obvious. Shown by "LETHAL_DOSES 20251018-1022", at 22 October I was escorted to another facility, the Clausura (an iron-barred isolation cell, solitary confinement) the 2nd time**.** They never told me and my family, I have 0 memory of it: at day 22 I got a complete memory-wiping injection at 15:35 (haloperidol+akineton) and at 15:45 I was locked there, the doses given there and actions done totally uknown.

"Clausura 2_1" and 2_2 (as all 3 Clausuras) illegally show no release date, no required signatures, and no legal notification to my representative.They could do anything, give anything, implant anything in this DEEPEST INFERNO OF PSYCHIATRIC HORROR during this blackout period!!! I requested my complete medical documentation but the decourse papers (daily clinical progress notes) and other key documents were destroyed/hidden despite their legal obligation to provide them!

By November 2, "LETHAL DOSES 20251102-1106" I got 400mg Leponex, liquid 2 ml Haloperidol, Inj. Haloperidol 2x2 amp, 4 injections daily!!! I don't remember any of the 4 injections and the concentration of injections is missing from the document: a clear attempt to obscure the chemical execution attempt!!! It was obviously with the most concentrated Haloperidol (mg/ml) and Concor (Bisoprolol) which further slows the heart in addition to the skeletal state AND the extraordinary doses of antipsychotics and extraordinarily high TSH. Medical protocol demands that Haloperidol injection is given exclusively in a single ampoul and at 1 occasion, only in case of absolute emergency. I was jabbed with 4 ampoules COMBINED with 400mg Leponex (Clozapine), Concor (Bisoprolol), AND liquid Haloperidol, in a skeletal state DAILY! I got the injections for a whole week constantly

Shown by "LETHAL DOSES 20251107-1116", I was given liquid Haloperidol 3-3-4 ml (!) at days 12-14, THAT'S IN ITSELF 10 TIMES THE STANDARD DOSE AND 2.5 TIMES THE ABSOLUTE EXTREME MAXIMUM CAP, IN A SKELETAL STATE, COMBINED WITH 425MG LEPONEX (!), COMBINED WITH (!) 6 HALOPERIDOL INJECTIONS! The II EX at day 12 is a short for "2 extra", I got 2x2 ampoules previously, THATS 6 INJECTIONS WITH 10ML HALOPERIDOL SOL. (LIQUID) IN A SINGLE DAY! I was constantly in aware/complete coma I don't know how many times and for how long, taking extraordinarily serious and permanent brain, heart and celluar damage in constant life crisis. I don't remember but only 2 of the injections I was forced of the total cca 42 injections in 3 months (the one of Pálinkás and 1 Cisordinol Depot).

I was subjected to physical torture: I literally BEGGED for a catether, sometimes 3 times in 10 minutes, I was physically unable to urinate due to the lethal drugs, they denied me for 2.5 months straight except 2 times, in the 1st closed ward (2025.09.) I got a catether once, 750ml got in it WHILE LAYING, about 1000ml in total was in my bladder, its a biological miracle my bladder didn't rupture in a skeletal state. Even for a normal man it's as if a handball was in his pelvic bone causing constant torment 24/7.

"LETHAL DOSES 20251117-1122", Nov. 20, I GOT XANAX, LEPONEX 500MG (!) liquid HALOPERIDOL 4 ml (after 6 ml at day 19), Concor AND Cisordinol 30mg ALL COMBINED DAILY!!! All in dustified form, they told me if they figured I didn't swallow they'd strap me to bed and forcibly inject me with all of them!!!

"LETHAL DOSES 20251122-1201", CISORDINOL WAS RAISED TO 75MG FROM 30, COMBINED WITH XANAX, LEPONEX 500MG, HALOPERIDOL 2ML, CONCOR DAILY!!! Day 27. In comparison: A STRONG man (not average) would be so sedated after 25mg Cisordinol IN ITSELF, he couldn't walk and wouldn't know his gender and age (complete loss of identity). It is an absolute biological and medical miracle I survived. 75mg Cisordinol IN ITSELF would send a strong phisique man in coma for days/weeks and cause complete muscle rigidity. To me in a skeletal state with still high TSH (crippled metabolism and detoxification) it was at least 200-300mg Cisordinol DAILY FOR WEEKS in comparison to a normal man COMBINED WITH ALL THE OTHER POISONS. The combination drastically times the effect, these doses did not just add up, their effects multiplied exponentially! In my opinion this is polypharmacy at it's known historical upmost, as my 195 TSH a biological miracle which was unprecedented (clinical death normally happens at 100). TSH was measured at day 2 and 4 days off the unknown toxin, it may have been way over 200.

"Clausura 3_1" and 3_2 are proofs of another Clausura in Nov. 17 at 11 in the night, I never known of it before seeing the document! I was sanctioned by Dr. Gábor Körtély, relative of Katalin Körtvélyesi, who refused to grant me the whole documentation and the rest was given with a 37 days delay (legal deadline 30 days).

"LETHAL DOSES 20251202-1206" at day 2-3 December, even I with exceptional resistance was dying. I remember I vomitted when I swallowed the dustified poisons at night, at day 2. I was forcibly injected with all the doses and completely backed out, woke up at day 3 a nurse binding infusion in my vein with life-threateningly low pulse and bloodpressure with fever. The 500mg Leponex(Clozapine), 75mg Cisordinol, Xanax and Concor got directly in my blood by the injection and caused an absolute receptor blockade and drastic neurological burnout (my neurons burned out, not only blockaded by these doses in injection, which later caused extraordinary and permanent akathisia, total lack of joy (anhedonia) and a severely damaged will, extraordinarily bad memory and unbearable itching I will detail later). At day 03 they pretended it as COVID (see the paper "COVID+") to mask the toxicological emergency.

Vomitting and fever while Leponex(Clozapine) is an immediate toxicological emergency which by medical protocol demands immediate transfer to the intensive detoxicology and immediate cessation of all psychiatric poisons BUT they kept me infused with 1500ml Ringer, they knew of the life crisis and kept me closed in the locked ward by the time for 2 MONTHS. I urined nothing, the 1500ml became edema.

"LETHAL DOSES 20251207-1211" shows a Cisordinol Depot 2 ampoules injection (concentration

unrecorded), I only remember one. All this was combined with the 75mg oral Cisordinol and all the other toxins. IF it was a standard ampoul, it was 95 mg daily Cisordinol, I got it since mid October (2 ampoules/3 weeks which the medicine chart doesn't show but the "final report" refers), I have no memory of this and I only know by documents. After even the staff began begging for my release whos saw in their entire carrieers nothing like my case. After 3 months of total captivity, 2 weeks of 1st closed ward captivity (2025.09.12-2025.26.), 5 days of "open" ward and more than 9 weeks in the 2nd closed ward (2025.10.03. - 2025.12.), I was released home extraordinarily sedated and a life completely ruined, both physically and spiritually broken.

Noone under 50 ever required a catether in that facility's history according to staff, I begged for it for 11 weeks. The psychocriminal Dr. Gábor Körtély threatened me to take the doses (400mg Clozapine, 75mg Cisordinol, Concor, Cisordinol injection) after my release or I'd go "crazy" and I'd get forcibly returned to his ward. He threatened my family to put me under "guardianship" which would strip me all of my adult rights. He told them if they didn't, he would start the legal process. My father refused, my evil mother desired that and tried to go for it.

My grey matter catastrophically shrunk and I suffered extraordinary and permanent brain damage and metabolic catastrophe. My pulse was measured and I was EKG-d daily for weeks, I remember none. I got 39c temperature for 2 weeks straight after completely stopping all antipsychotics and benzos at once and my nose was completely blocked, I could only breathe with my mouth and couldn't sleep for 4 days. For 1 month I had severe running nose. I needed to pace and couldn't sit still, earlier constantly and now in waves, unbearable itching waves come at night when I constantly scratch my legs without stop and my memory is decimated: if I walk into a mall I don't remember the way out, I can't remember 1 word from 5 (for example door) after 10 seconds of hearing, I often forget a sentence before I finish hearing/reading it and have amnesia, I can't remember my breakfast and the fact I turned on the heater, I came back to the room 5 mins later and sensed the heat. My nose often bleeds since release and my eyes are blood-red.

My edema stretches my stomach and lungs, while the drastic muscle wasting induced by the unknown toxin and potent neuroleptics makes my arms and hands skeletal even with waterweight, see my photos. The extreme muscle wasting is very visible on my face: my eyes appear unnaturally large due to the loss of facial muscle. See "head 20260412", "hand 20260412", "forearm 20260412", "belly_1 20260412" and _2 for evidence! Photo "Sedation" was taken in the ward, look at my eyes!

"InBody_1" and 2-4 show the In-Body machine analysis I done months later, I got 0.427 edema index (in comparison: 0.410 requires immediate intensive care, I was denied because my words were disregarded when the doctor saw the psychiatric documents in the "cloud" (Hungarian "EESZT"), DEPSITE the papers of the In-Body (validated medical machine) showed to him). My muscle loss is so drastic I could not walk if it was not for water pressure and extraordinary fat at the back, I could not keep myself up. A normal man with this "below minimum" muscle loss would be bound to bed. My 60-minute insulin is 149.2 ("BloodTest_20260417") with 85 kilos with 19kg critical edema (waterweight): 3 times the critical. This is unprecedented for my weight: the toxins (Clozapine and Aminex) have blocked my insulin receptors leaving my cells starving while my blood is dense with calories. I often make 10-15 seconds pauses

before finding a word while talking and akathisia torments me constantly, peaking in waves. My body jerks as if I was electro-shocked for hours, especially at night. My cognitive function is decimated: I cant count from 85 backwards by 7, a thing I could easily do at the age of 5-6 (I was the best in math in school's history, not even by a little).

This is sadly only the tip of the iceberg because of the missing documentation (especially Clausura), the injection's concentration, reasons and dates are missing, the injection I got when Pálinkás sent me to the 2nd closed ward was NOT documented at all. They never told me what I was forced, violating my fundamental rights to know (I was subjected to all potent neuroleptics in existence). Amongst the papers is a document unsigned, a form of consent, I never signed it, I was never told it existed, never knew of it, never shown and I never agreed to its terms. "UNSIGNED CONSENT_1" and 2. They took my blood about 30 times and by the composite of the doses it's obvious they wanted to chemically exterminate me by giving the specific kinds of neuroleptics which would be the most destructive in my state seen by the blood resuls. Hungarian law obliges all medical documents (medical charts, decourse papers, Clausura, injections, 30 blood tests, etc.) to be uploaded to the Hungarian EESZT (medical cloud server), they only uploaded the mostly falisihied "final reports". I was locked in the chemical prison for "religious delusions, delusions about stealings and poisonings". Even the final report notes "többször betörtek hozzá, elloptak dolgokat tőle" which means I had burglars and I was stolen things multiple times, my father testifies this too who visited me at my farm, this is the proof of the stealing.

The 195.940 TSH is the proof of poisoning, none biological thing could ever cause this in existence. The proof of my religion is the fact I'm alive my miracle, according to AI calculations a normal person would've died at the very least 10 times daily by these doses in such a state which makes about 1000 in total. According to simulation a horse would've surely died by this, I was a skeleton. I was given ALL OF THE STRONG KINDS OF ANTIPSYCHOTICS IN EXISTENCE: Haloperidol, Clozapine, Cisordinol, Olanzapine, Amisulpride, Ripedon, Risperdal. I contacted the CCHR, they never gave me any actual help just collected data by my testimonies. They claimed THEY COULD NOT SUE FOR LASTING HEALTH DAMAGE because "my TSH normalized (1.422)", completely ignoring the catastrophic brain damage, metabolic decimation, and the destruction of my will.. This was a a historical extreme chemical lobotomy and a physical-spiritual execution attempt, torment and ruin of my life. This measure of unjustice done can't be described with words, My neurons burned out making the neurological symtoms permanent. Until my death I will be tormented by severe akathisia, cognitive and memory decimation and chronic itching, worse than one could imagine.

The worst of it all is the spiritual execution I suffered: I feel profoundly disconnected from **GOD**.

Update: This is sadly not the end of the story. After contacting multiple civil organisations and finding all are controlled oppositions "PÉF, Pszichiátriai Érdekvédelmi Fórum" (they literally told me my case is not so important as to deal with it by lack of capacity), TASZ "Társaság a Szabadságjogokért" (which by the way in an underground manner teaches woman how they are legally NOT obliged to tell anyone about their abortion according to satanic Hungarian law including the unborn's own father!!!, and merely exists for supporting feminists/LMBTQ's "rights") and CCHR (they claimed they started investigation but never shared the details even after months, they promised to inform in 1-2 weeks) I went to the police in Budapest, District 13 (same as Nyírő). I printed a very complex report complaint with undeniable proofs and a Medical Fact Draft, the youg woman Szilvia Kocsis criminal soon as she heard the word "psychiatry" instantly tried to convince me to abort the report because it was "unintentional" in her opinion!

She copied the evidence documents but she gave the original back with the crucially important yellow text highlights unvisible on the copies and took the copies. After 1 week I went back to the police station to know the report number and they illegally refused to tell me anything except the investigator's name, CRIMINAL Roland Rosz police captain. I went back there the next day, the police servers "for some reason" FROZEN so they "couldn't tell" the report number and according to the woman all servers were frozen (meaning all police stations, 100% unreal).

The next day I came back again and they told me the report number "01130/3037/2026ált", ált stands for "common/általános" instead of "criminal/büntető/bü" meaning they weren't obliged to forcibly obtain the missing documents from Nyírő with a deadline. In my report I asked the police to immediately go to Nyírő and obtain the phisical and electronic complete original database about me because they knew I reported them to the police. My own evil grandmother from my father's side told Fejér how I reported him and the ward. Fejér was a "friend" of my grandparents for decades and showed a freemasonic handsign when he first saw me. I wasn't aware of the handsign's nature at the time. I also gave an addition/update to the report but Rosz wasn't there so Kocsis got it. I demanded to speak to Rosz (his surname means "red") and a policewoman called him on his private phone, he told he's taking a "psychiatric reliability test" incoincidently the day I could meet him. This is an obliged test for all policeman but they take 1 in many years.

She asked when will he be back, he LIED he'd be there THE WHOLE DAY (it was 12:00, he was supposed to be constantly at the station until 8:00 the next day!!, then instantly cut off the line! I returned at 10 in the night the same day and found him there. I demanded they take all documents from Nyírő as soon as possible, categorise the report as "criminal" and give me the 01130/3037/2026ált report logs. I figured after the report they were legally obliged to make a word-by-word log of the report and they MUST give me a copy right when I first done the report. Kocsis didn't make any log Rosz admitted and he lied how the text which I gave them on paper serves as the log but by police protocol all reports must have a word-by-word log, Kocsis visibly didnt write a WORD. He immediately asked if I'm under guardianship, I told him no. He then put his hands on his face and bent forward to humiliate me with body language as if he was talking to a mental and told me to tomorrow meet with his superior, chief criminal Zoltán Németh and told me "now I'll escort you outside!". We went back 5 minutes later with my father demanding the log for long, he didn't care.

The next day I went to the station, Kocsis came out and informed me Németh demands to speak to my father and refuses to grant me audience!! I told her my father is working and he came out and we went to his office. He told me they revised the report with Rosz and they both think I'm mentally ill and they **DECLINE THE REPORT WITHOUT ANY INVESTIGATION** , they were obliged to investigate because it had a report number! He told me he just spoke to my father 5 minutes ago on phone and my father thinks I'm mentally ill and he will start the legal process to put me under guardianship. I asked for the logs again, he told me I'll get nothing. He told me they **BAN ME FROM THE STATION** and if they will see me returning they will refuse to open the door!!! He escorted me outside and told me "I'll get help under guardianship". I called my father who told me "everything Németh said was a lie" (he was the one who refused to put me under guardianship) and rightfully asked "How would they even know my phone number?". If they spoke 5 minutes ago Németh would've known he wasn't with me at the station.

I had visits 4 times in the ward from a court to revise if they had the right to keep me there. First 3 days after my inprisonment and then monthly. They falsified the logs which I found after my release in my PO box and the 4th log completely misses (they were obliged to give me all). It mentions false accusations as acustic hallucinations, paranoid thoughts, even suicide thoughts when the final report itself mentions "when asked, he tells he knows the Earthly pain is temporary, he doesn't want to die" (this was at the talk BEFORE the 2 security guard escorted me in the ward!!) and "bizarre" behavior which is 100% relative. The suicide thoughts were a fake to justify my inprisonment before court. The 2nd court log mentions the aware coma "többször elrévül, a valóságot mint ha nem érzékelné" meaning "he drifts away multiple times as if he didn't percive reality" and then in the next line "a meghallgatáshoz alkalmas állapotban van" "he's in proper state for the negotioation"!!! This driftaway in a 10 minutes visit happened multiple times (early November).

I escaped 2 times because of the tormenting urinate problem and constant hell, both times I went back with my father in his car because they threatened to put me on police "wanted" list. I'd never have gone back if not for the extraordinary sedation. Court log reports the psychiatry claimed they took me back forcibly because I protested to come back and then sarcastically "he didn't understand why he'd need to go back there". Patricia Wahl my appointed lawyer betrayed me, she "supported my forced threatment in my own interest". This she told AFTER the visit to hide it from me. Several times, the psychiatrists of the ward talked to the court BEFORE the visit and told the lies about hallucinations and other things. My urine problem was categorised as a delusion for them (as the documents show). The 2nd visit in October was at my bed where I needed to sit up because I was too sedated to walk to the table, cca 30 meters "he sat up on his bed, he's visibly confused" as the log reports.

On the 2nd visit in October 9, the psychiatrists threatened me to not appeal or I'll be kept in the ward for 3 more weeks but if I don't they'd release me in 1 week (eventual release date 12.11.), by extraordinary sedation and psychiatric pressure I was SCARED to appeal. I appealed the 3 other visits (Sept, Nov, Dec),

the appeal papers of Nov are TOTALLY MISSING, the Sept was declined and both the log and the appeal are totally missing from the Dec visit. The corruption is so wast they managed to stop these papers from entering my address.

In May 2026 by the 149 insulin after 60 minutes, my body gained even more waterweight in addition to the 19.1kg ECW. I was 93kg, and I started choking because there was so much water in my belly that it srtarted to press my lungs. I went to the urgentcare of Bajcsy-Zsilinszky hospital in district 10 Budapest and waited for 11 hours, the 2nd longest was 6 hours and she was shouting and threatening to tell her journalist friend about the story. After even 2 strangers, me and my father were protesting against my waiting time (2 strangers, whos came 5 hrs later than me and left totally examined on their way out asked "oh my how can you still be there?!") I was called in. The doctor didn't say any greetings, she just asked with a provoking voice "do you take the drugs you were prescribed?" (she saw in the EESZT the prescribed psychiatric drugs: 400mg Clozapine and 75mg Cisordinol with 2amp/3 weeks Cisordinol Depot injections).

After I told I'm there with an edema problem which has no relevance to the psychiatry, she shoutedly interrogated: "ANSWER THE QUESTION!". They took my blood and sent me home with the F20 code (paranoid skizophrenia) on the paper right at the top mentioning the "hospitalisation" in Nyírő. Nyírő uploaded the final reports to the EESZT so anywhere I'd go with my symptoms they would refuse to cure me and accuse my symptoms of being "imaginary". Doctors always checked the EESZT before they saw me. 10kg of ECW is life threatening for a normal person and for my normal weight even 4-5kg. I showed the InBody results and they called the results "bullshit", literally. InBody is a validated medical machine. Without fat and extracellular water I'd be 43.6 kg (2026.04., InBody results) as a 177cm male (near death).

I was visibly choking, needing to take very deep breaths to get normal air. The doctor illegally didn't upload the examination paper to the EESZT. The next day I called the ambulance and went back to the same place. I was called in quickly and I mentioned my 11 hrs wait, Péter Soós said with a threatening voice "this time you won't wait so much", this was already suspicious. He didn't examine me and was sitting cca 8 meters from me. They took my blood and sent me to wait. 4 hrs later a worker with a wheelchair came to me and told me I was transferred to another hospital, I asked which and he refused to answer. After asking it the 3rd time and hesitating to go he told "to Nyírő". I was shocked and afraid beyond words and told him visibly extraordinarily stressed "it's a psychiatry, I got an edema problem" and he replied "don't worry, you are in good hands they can cure your edema there". The paper calling for transfer (see evidence document "urgent care") which Soós made was NOT shown to me and I didn't sign it. To my luck there was no police called for the escort and I left.

The next day I found the document in EESZT saying "in my opinion he needs psychiatric care, we'll transfer him to the Nyírő Gyula psychiatric institution" and "after I examined him I found no edema, vital functions are stable" - he NEVER examined me. The choking over time eased a bit but the akathisia and itching worsened even after half a year. The itching got so bad it's literally as if 100s of needles struck my manhood and legs for hours constantly.

In these itching and akathisia waves I can't even type or do anything at the same time and I screamed in the night it was so painful. It's way beyond normal itching and it's "nerve itching" by the brain damage (false signals). Earlier it was in waves, either no itching or some, and now it's constant but peaks in waves making me unable to type and do anything. I broke my bed's desk by the shaking of the akathisia and it's constant the whole night. I could only sleep maybe 2 hrs now. I always slept on my back but ever since the psychiatry I could only sleep on my side but of late even while laying on my side I suffer from akathisia which makes sleep inpossible. As their "confession" of the execution attempt they gave me the smallest dose of L-thyroxin in existence for a world record thyroid crisis, because they had to give something by endocrinologist's order.

My story may seems unique but it's because the unknown number of victims of psychiatric, court, police, medical and government abuse can't talk from the grave. With 0.00 T4 it's a biological and medical miracle to stay alive, I've been to the afterlife's door and if there is an afterlife I pray their worms will never die. I sent the short version of this story to MIA (Mad in America), they never answered. They are the minions of the beast which crippled me.
